Acme Corporation

RE: Career Change Devsecops Engineer

Dear Hiring Manager,

I am excited to apply for the Career Change Devsecops Engineer position at Acme Corporation, as advertised on LinkedIn. With a strong background in software development and a passion for cybersecurity, I am eager to leverage my skills in a DevSecOps environment and contribute to your innovative team.

In my previous role as a Software Developer at Tech Innovations Inc., I spearheaded a project that integrated security protocols into our CI/CD pipeline, reducing vulnerabilities by 40% in our applications. Collaborating closely with the security team, I developed automated testing scripts that ensured compliance with industry standards, which not only improved our security posture but also expedited our deployment cycles. Moreover, I successfully transitioned our legacy systems to a cloud-based architecture, which enhanced our scalability and reduced operational costs by 30%. These experiences have equipped me with a solid foundation in both development and security, which I am excited to apply to the DevSecOps field.

I am particularly drawn to Acme Corporation due to your commitment to fostering innovation while prioritizing security. I believe my proactive approach and dedication to continuous learning will make me a valuable addition to your team. I am eager to further discuss how my background and passion align with the goals of your organization. Thank you for considering my application; I look forward to the opportunity to speak with you.

Sincerely,

Jordan Smith
