Acme Corporation

RE: Career Change Full Stack Developer

Dear Hiring Manager,

I am excited to apply for the Career Change Full Stack Developer position at Acme Corporation, which I discovered on your careers page. With a passion for technology and a background in project management, I am eager to leverage my skills in a full stack development role where I can contribute to innovative projects and collaborate with a talented team.

In my previous role as a project manager, I led a team tasked with developing a web application that streamlined our internal communication processes. By implementing Agile methodologies and utilizing my knowledge of JavaScript and React, we reduced project turnaround times by 30%. This experience ignited my interest in software development, prompting me to enroll in a coding bootcamp where I honed my skills in front-end and back-end technologies, including RESTful APIs and Node.js. Additionally, I successfully created a personal finance tracking application, which received positive feedback from users for its intuitive design and functional capabilities, showcasing my ability to deliver user-focused solutions.

I am particularly drawn to Acme Corporation because of its commitment to innovation and excellence in technology solutions. I am eager to bring my unique perspective and problem-solving skills to your team. I would welcome the opportunity to discuss how my background in project management, combined with my recent full stack development training, makes me a strong candidate for this role. Thank you for considering my application.

Sincerely,

Jordan Smith
