Acme Corporation

RE: Career Change Infrastructure Engineer

Dear Hiring Manager,

I am excited to apply for the Career Change Infrastructure Engineer position at Acme Corporation, which I discovered on LinkedIn. With a strong foundation in software development and a newfound passion for infrastructure engineering, I am eager to leverage my skills to contribute to your innovative team. Acme's commitment to advancing technology solutions aligns perfectly with my career aspirations, making this opportunity particularly appealing to me.

In my previous role as a Software Developer at Tech Innovations, I successfully led a project to migrate our application to a cloud-based infrastructure, which resulted in a 30% reduction in server costs and improved system uptime by 40%. This experience not only honed my technical skills but also deepened my understanding of how infrastructure decisions impact overall software performance. Additionally, I collaborated with cross-functional teams to design and implement automated deployment scripts, which expedited our release cycle by 50%. These achievements reflect my ability to adapt quickly and apply my existing knowledge to infrastructure challenges.

I am particularly drawn to the dynamic environment at Acme Corporation and am enthusiastic about the prospect of working alongside industry leaders who share my dedication to excellence in infrastructure engineering. I would welcome the opportunity to discuss how my background in software development and my passion for infrastructure can add value to your team. Thank you for considering my application; I look forward to the possibility of contributing to Acme's success.

Sincerely,

Jordan Taylor
