Acme Corporation

RE: Career Change iOS Developer

Dear Hiring Manager,

I am excited to apply for the Career Change iOS Developer position at Acme Corporation, which I discovered on your company's careers page. As a passionate technology enthusiast with a strong foundation in software development, I am eager to leverage my skills in iOS development and contribute to your team's innovative projects.

In my previous role as a web developer, I successfully led a project to redesign the company's client portal, which resulted in a 40% increase in user engagement and a 25% reduction in support tickets. This experience honed my ability to produce user-centric designs and implement effective solutions, skills that I believe are directly transferable to iOS app development. Additionally, I have recently completed several iOS development courses, where I developed a fully functional mobile application that helps users track their fitness goals, receiving positive feedback from peers and instructors alike.

I am particularly drawn to the innovative work being done at Acme Corporation, especially your recent initiatives in mobile technology. I am eager to bring my development skills, coupled with my fresh perspective from my background in web technologies, to your esteemed team. I would appreciate the opportunity to discuss how my experience and passion for mobile development can contribute to your projects and goals. Thank you for considering my application; I look forward to the possibility of discussing this exciting opportunity with you.

Sincerely,

Jordan Taylor
