Acme Corporation

RE: Career Change Php Developer

Dear Hiring Manager,

I am excited to apply for the Career Change Php Developer position at Acme Corporation, as advertised on your company's careers page. With a background in project management and a recent completion of a coding bootcamp focused on PHP development, I am eager to leverage my skills in a dynamic environment like yours that values innovation and creativity.

During my previous role as a Project Manager at Tech Solutions, I successfully led a cross-functional team to deliver a large-scale software project three months ahead of schedule. My hands-on experience in coordinating with developers allowed me to gain insights into software development processes and sparked my interest in coding. Additionally, through my bootcamp, I developed a web application that streamlined project tracking for teams, which improved our project update efficiency by 40%. This project not only honed my PHP skills but also reinforced my passion for creating user-friendly applications that solve real-world problems.

I am particularly drawn to Acme Corporation's commitment to using technology for social good and believe my unique perspective can contribute to your innovative projects. I am eager to bring my blend of project management experience and newly acquired PHP development skills to your team. I would love the opportunity to discuss how my background can be an asset to Acme Corporation. Thank you for considering my application, and I look forward to the possibility of contributing to your team.

Sincerely,

Jordan Mitchell
