Acme Corporation

RE: Entry Level Ux Ui Designer

Dear Hiring Manager,

I am writing to express my enthusiasm for the Entry Level UX UI Designer position at Acme Corporation, as advertised on LinkedIn. With a strong foundation in user-centered design and a passion for creating intuitive and engaging digital experiences, I am excited about the opportunity to contribute to your innovative team.

During my time at university, I spearheaded a capstone project where I led a team in redesigning a local nonprofit's website. Through user research and usability testing, we identified key pain points that hindered user engagement. As a result, we developed a new design that improved user navigation by 30%, significantly enhancing the overall user experience. Additionally, I interned at a tech startup, where I collaborated with developers and product managers to create wireframes and prototypes for a mobile application. This experience taught me the importance of iterative design and stakeholder feedback, leading to a final product that received positive reviews and increased user retention by 20% after launch.

I am particularly drawn to Acme Corporation's commitment to innovation and user satisfaction, and I am eager to bring my skills in design thinking and problem-solving to your team. I am confident that my proactive approach and dedication to understanding user needs align well with your organization's goals. I would love the opportunity to discuss how I can contribute to your projects and help elevate the user experience at Acme Corporation. Thank you for considering my application.

Sincerely,

Jordan Lee Thompson
