Acme Corporation

RE: Freelance To Full Time Aerospace Engineer

Dear Hiring Manager,

I am excited to apply for the Freelance to Full Time Aerospace Engineer position at Acme Corporation, which I discovered on LinkedIn. As an aerospace engineer with over five years of freelance experience in cutting-edge aerospace projects, I am eager to contribute my skills and expertise to your esteemed team. Acme's commitment to innovation and excellence in the aerospace sector aligns perfectly with my career aspirations and values.

During my freelance career, I successfully led the design and development of a lightweight composite structure for an unmanned aerial vehicle (UAV) that resulted in a 20% reduction in weight while maintaining structural integrity. This project not only enhanced the UAV's performance but also saved the client significant costs in material procurement. Additionally, I played a key role in optimizing propulsion systems for a small satellite launch vehicle, where my design modifications improved fuel efficiency by 15%, ensuring that the vehicle met stringent regulatory requirements and performance benchmarks.

I am particularly drawn to the opportunity at Acme Corporation because of your focus on sustainable aerospace solutions. I am eager to bring my diverse skill set in system integration and project management to your team, contributing to innovative projects that push the boundaries of aerospace technology. I look forward to the possibility of discussing my application further and exploring how I can contribute to the exciting work at Acme. Thank you for considering my application.

Sincerely,

Jordan A. Mitchell
