Acme Corporation

RE: Freelance To Full Time Android Developer

Dear Hiring Manager,

I am thrilled to apply for the Freelance To Full Time Android Developer position at Acme Corporation, which I discovered on LinkedIn. With over five years of experience in Android development and a proven track record of delivering high-quality mobile applications, I am excited about the opportunity to contribute to your innovative team and help shape the future of your mobile solutions.

During my freelance career, I successfully developed and launched a highly rated fitness application that garnered over 50,000 downloads within the first three months of launch. This project not only honed my skills in Java and Kotlin but also strengthened my ability to work independently while managing client expectations and project timelines. Additionally, I collaborated with a local startup to revamp their existing Android application, resulting in a 40% increase in user engagement and a 25% boost in customer retention. This experience taught me the importance of integrating user feedback into the development process and reinforced my commitment to creating exceptional user experiences.

I am particularly impressed by Acme Corporation's dedication to pioneering mobile technology and user-centered design. I am eager to bring my expertise in developing scalable and efficient Android applications to your team. I am confident that my background in freelance work has equipped me with the adaptability and problem-solving skills necessary to thrive in a full-time role.

I would appreciate the opportunity to discuss how my skills and experiences align with the needs of your team. Thank you for considering my application. I look forward to the possibility of contributing to Acme Corporation and am excited to discuss this opportunity further.

Sincerely,

Jordan Lee Thompson
