Acme Corporation

RE: Freelance To Full Time Audio Engineer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Audio Engineer position at Acme Corporation, which I discovered on your careers page. With a diverse background in audio engineering and a proven track record in both freelance and collaborative environments, I am eager to bring my expertise to your innovative team and contribute to the exceptional projects Acme is known for.

During my freelance career, I had the opportunity to work on a variety of projects, including a recent collaboration with an independent film director, where I designed and implemented soundscapes that enhanced the emotional depth of the film. This project not only received acclaim at several film festivals but also helped me refine my skills in sound design and mixing under tight deadlines. Additionally, I engineered a local band's debut album which received positive reviews in several music publications. My ability to capture the distinct sound of the band while ensuring high production quality was critical in establishing their brand in a competitive market.

I am particularly impressed with Acme Corporation's commitment to pushing the boundaries of audio innovation, and I am eager to discuss how my skills in project management and audio production can further enhance your team's capabilities. Thank you for considering my application; I look forward to the opportunity to discuss how I can contribute to the exciting work at Acme Corporation.

Sincerely,

Jordan Mitchell
