Acme Corporation

RE: Freelance To Full Time Automation Engineer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Automation Engineer position at Acme Corporation, which I discovered on LinkedIn. With a strong background in automation engineering and a proven track record of delivering high-impact solutions, I am eager to bring my expertise to your esteemed organization and contribute to your innovative projects.

During my time as a freelance automation engineer, I successfully led a project for a major e-commerce client where I designed and implemented an automated testing framework that reduced their regression testing time by 40%. This significantly improved their release cycle and allowed the team to focus on developing new features. Additionally, I collaborated with a startup to automate their CI/CD pipeline, which resulted in a 30% increase in deployment efficiency. These experiences have honed my skills in various automation tools and frameworks, including Selenium, Jenkins, and Robot Framework, ensuring that I can effectively tackle challenges and deliver quality results.

I am particularly drawn to Acme Corporation because of its commitment to innovation and excellence in engineering solutions. I am eager to contribute my knowledge of automation processes to enhance the efficiency and reliability of your projects. I would love the opportunity to further discuss how my background, skills, and enthusiasms align with the goals of your team. Thank you for considering my application; I look forward to the possibility of working together.

Sincerely,

Jordan Lee Williams
