Acme Corporation

RE: Freelance To Full Time Aws Solutions Architect

Dear Hiring Manager,

I am excited to apply for the Freelance to Full Time AWS Solutions Architect position at Acme Corporation, as advertised on LinkedIn. With a robust background in cloud architecture and significant freelance experience, I am eager to leverage my skills to contribute to your team's innovative projects and help drive the success of your cloud initiatives.

During my freelance tenure, I successfully designed and implemented a scalable cloud infrastructure for a startup that increased their application performance by over 40%. By utilizing AWS services such as EC2, S3, and RDS, I was able to create a cost-effective solution that not only improved efficiency but also reduced operational costs by 30%. Additionally, I led a migration project for a mid-sized company transitioning their legacy system to AWS, which involved critical assessments of their existing architecture and tailored recommendations that resulted in zero downtime during the transition.

I am particularly drawn to this position at Acme Corporation due to your commitment to leveraging cutting-edge technologies and driving cloud adoption across various industries. I would welcome the opportunity to discuss how my specialized experience and proven track record can benefit your team. Thank you for considering my application; I look forward to the possibility of contributing to the exciting projects at Acme Corporation.

Sincerely,

Jordan A. Mitchell
