Acme Corporation

RE: Freelance To Full Time Cloud Engineer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Cloud Engineer position at Acme Corporation, as advertised on LinkedIn. With a strong background in cloud technologies and a proven track record of delivering high-quality solutions, I am eager to bring my skills to your innovative team and contribute to the exciting projects at Acme.

In my recent freelance projects, I successfully led the migration of a complex legacy system to AWS for a mid-sized client, which resulted in a 40% reduction in operational costs and improved system performance by 30%. By employing Infrastructure as Code (IaC) using Terraform, I was able to streamline the deployment process and ensure greater consistency across environments. Additionally, I developed a cloud security framework that helped a startup client achieve compliance with industry standards, enhancing their security posture and reassuring investors of their commitment to data protection.

I am particularly drawn to this role because of Acme Corporation's commitment to innovation and excellence in the cloud space. I believe my hands-on experience, combined with my passion for cloud engineering, aligns well with your goals. I am looking forward to the opportunity to discuss how my background, skills, and enthusiasms can contribute to the growth and success of Acme Corporation. Thank you for considering my application.

Sincerely,

Jordan A. Thompson
