Acme Corporation

RE: Freelance To Full Time Energy Engineer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Energy Engineer position at Acme Corporation, as advertised on LinkedIn. With a strong background in energy systems and sustainable engineering practices, I am eager to contribute my expertise to your innovative team. Acme Corporation's commitment to promoting renewable energy solutions aligns perfectly with my professional values and aspirations.

During my freelance career, I successfully completed a project for a local municipality where I conducted an energy audit for their public buildings. This initiative led to the identification of energy-saving opportunities that resulted in a 25% reduction in energy consumption and annual savings of over \$50,000. Additionally, I was instrumental in implementing a solar panel installation for a commercial client, which not only enhanced their sustainability efforts but also improved their overall energy efficiency by 30%. These experiences have equipped me with the skills necessary to tackle complex energy challenges and drive impactful results.

I am particularly drawn to this full-time opportunity at Acme Corporation as it presents a chance to deepen my involvement in large-scale projects and collaborate with a team dedicated to advancing energy solutions. I am confident that my hands-on experience, along with my technical knowledge in energy modeling software and project management, will allow me to make significant contributions to your ongoing initiatives.

I would love the opportunity to discuss how my background, skills, and enthusiasms align with the goals of Acme Corporation. Thank you for considering my application. I look forward to the possibility of contributing to your team and am eager to discuss my candidacy further.

Sincerely,

Jordan Taylor
