Acme Corporation

RE: Freelance To Full Time Environmental Scientist

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Environmental Scientist position at Acme Corporation, as advertised on your company's careers page. With a strong background in environmental science and a passion for sustainable practices, I believe my skills align well with the goals of your team. My freelance work has afforded me the opportunity to tackle diverse environmental challenges, and I am eager to bring this experience to a full-time role at Acme.

During my time as a freelance consultant, I successfully led a project where I assessed the ecological impact of a proposed development in a sensitive wetland area. My comprehensive study included field surveys, data analysis, and stakeholder engagement, ultimately resulting in a 30% reduction in the project's footprint due to my recommendations. Additionally, I collaborated with local governments to develop a waste management strategy that increased recycling rates by 50% over two years, showcasing my ability to drive environmental initiatives that have a measurable impact.

I am particularly drawn to Acme Corporation's commitment to innovation and sustainable practices, and I am eager to contribute my expertise in environmental assessments and project management to your team. I am confident that my proven track record in both freelance and collaborative settings will allow me to excel as a full-time Environmental Scientist.

I would welcome the opportunity to discuss how my background, skills, and enthusiasms align with the goals of Acme Corporation. Thank you for considering my application; I look forward to the possibility of contributing to your team.

Sincerely,

Jordan A. Thompson
