Acme Corporation

RE: Freelance To Full Time Formulation Scientist

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Formulation Scientist position at Acme Corporation, which I discovered on your careers page. With a strong background in formulation science and a proven track record in developing innovative products, I am eager to contribute to your team and help advance Acme's mission of delivering high-quality solutions to your customers.

During my freelance tenure, I successfully developed a novel formulation for a skincare product that increased stability by 30% compared to previous versions. This achievement not only extended the product's shelf life but also enhanced its performance, resulting in a 15% increase in customer satisfaction ratings according to follow-up surveys. Additionally, I collaborated with a startup to reformulate their dietary supplement line, optimizing ingredient interactions and improving absorption rates, which led to a 25% boost in sales within the first quarter of re-launching the products.

I am particularly drawn to this opportunity at Acme Corporation because of your commitment to scientific innovation and sustainability. I believe my extensive experience in both hands-on formulation work and project management will allow me to make a meaningful impact on your product development initiatives. I welcome the chance to discuss how my background, skills, and enthusiasms align with the goals of Acme Corporation. Thank you for considering my application; I look forward to the opportunity to speak with you further.

Sincerely,

Dr. Emily Carter
