Acme Corporation

RE: Freelance To Full Time Full Stack Developer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Full Stack Developer position at Acme Corporation, which I discovered on LinkedIn. With over five years of experience in developing dynamic web applications and a proven track record of delivering projects on time and within budget, I am eager to bring my skills to your team and contribute to Acme's innovative solutions.

During my time as a freelance developer, I successfully completed a project for a health tech startup where I built a responsive web application that improved user engagement by 40%. This project required a deep understanding of both front-end and back-end technologies, including React, Node.js, and MongoDB. Additionally, I led the migration of a legacy system to a more scalable cloud-based infrastructure, resulting in a 30% reduction in load times and significantly improved user experience. These experiences have honed my ability to manage multiple aspects of development and work collaboratively with diverse teams to meet client needs.

I am particularly impressed by Acme Corporation's commitment to leveraging technology to solve real-world problems. I am eager to discuss how my background in full stack development can align with your goals and help further your mission. Thank you for considering my application; I look forward to the opportunity to speak with you soon.

Sincerely,

Jordan Taylor
