Acme Corporation

RE: Freelance To Full Time ios Developer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time iOS Developer position at Acme Corporation, which I discovered on LinkedIn. With over five years of experience in iOS development, I am eager to bring my skills in both freelance and full-time settings to your innovative team. Acme's commitment to cutting-edge technology and user-centric design aligns perfectly with my professional values and aspirations.

During my freelance career, I successfully developed and launched a fitness tracking application that gained over 10,000 downloads within the first month. This project not only honed my technical skills in Swift and Objective-C but also deepened my understanding of app store optimization and user engagement strategies. Additionally, I collaborated with a startup to build a mobile payment solution that streamlined user transactions, resulting in a 30% increase in user retention. My ability to adapt to varying project requirements and to deliver high-quality results under tight deadlines has been a key factor in my success.

I am particularly drawn to this position at Acme Corporation because of your focus on creating impactful user experiences. I am eager to contribute my expertise in developing scalable iOS applications and to grow within a dynamic team environment. I would love the opportunity to discuss how my freelance background and technical skills can align with the goals of Acme Corporation. Thank you for considering my application; I look forward to the possibility of contributing to your team.

Sincerely,

Jordan Ellis
