Acme Corporation

RE: Freelance To Full Time Java Developer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Java Developer position at Acme Corporation, which I discovered on your careers page. With over five years of experience in Java development, both freelance and corporate, I am eager to bring my skills in software engineering to your dynamic team and contribute to innovative projects that drive business success.

During my freelance career, I successfully developed a robust e-commerce platform for a local retailer, resulting in a 50% increase in online sales within the first three months post-launch. Utilizing Java Spring Boot and Hibernate, I built a scalable architecture that seamlessly integrated with third-party payment gateways and inventory management systems. Additionally, I led a project for a healthcare startup where I implemented a patient management system that enhanced data security and reduced retrieval times by 30%, leveraging my expertise in RESTful APIs and microservices.

I am particularly drawn to Acme Corporation's commitment to technological advancement and user-centric solutions. I look forward to the opportunity to discuss how my technical skills, coupled with my hands-on experience in managing projects from conception to delivery, can be a valuable asset to your team. Thank you for considering my application. I am excited about the possibility of contributing to your projects and am looking forward to the opportunity to discuss my candidacy further.

Sincerely,

Jordan Smith
