Acme Corporation

RE: Freelance To Full Time Node Developer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Node Developer position at Acme Corporation, which I discovered on your careers page. With a strong background in building scalable web applications and a passion for Node.js, I am eager to contribute my skills to your innovative team.

During my freelance career, I successfully developed a real-time collaboration tool for a startup that improved team productivity by over 30%. By leveraging Node.js and WebSocket technology, I was able to implement features that allowed for seamless communication between users, ultimately leading to a 25% increase in user engagement. Additionally, I led the migration of a legacy application to a Node.js environment for a mid-sized company, which not only improved performance but also reduced server costs by 40%. These experiences have equipped me with the technical expertise and problem-solving abilities needed to excel in a full-time role.

I am particularly drawn to Acme Corporation's commitment to cutting-edge technology and its collaborative work culture. I am eager to bring my background in Node.js, along with my experience in agile development environments, to help drive the success of your projects. I would love the opportunity to discuss how my expertise aligns with your team's goals and how I can contribute to the exciting work being done at Acme Corporation.

Thank you for considering my application. I look forward to the opportunity to discuss my candidacy further and to learn more about the vision for this role.

Sincerely,

Jordan Thompson
