Acme Corporation

RE: Freelance To Full Time Packaging Engineer

Dear Hiring Manager,

I am excited to apply for the Freelance to Full Time Packaging Engineer position at Acme Corporation, as advertised on LinkedIn. With over five years of experience in packaging design and development, I am eager to bring my expertise to your team and contribute to your commitment to innovative and sustainable packaging solutions.

During my freelance career, I successfully led a project for a major consumer goods company where I redesigned their product packaging, resulting in a 25% reduction in material costs while improving shelf appeal. By leveraging advanced CAD software and collaborating closely with cross-functional teams, I was able to enhance the packaging functionality, which led to a significant increase in sales during the launch phase. Additionally, my role in developing eco-friendly packaging solutions for a startup not only aligned with my passion for sustainability but also helped the company secure a green certification, attracting a broader customer base.

I am particularly drawn to Acme Corporation's focus on innovation in packaging technology and sustainable practices. I am confident that my ability to analyze packaging challenges and design effective solutions will contribute to your goals. I would love the opportunity to discuss how my background, skills, and enthusiasms align with the needs of your team. Thank you for considering my application; I look forward to the possibility of working together to further enhance Acme Corporation's market presence.

Sincerely,

Jordan L. Smith
