Acme Corporation

RE: Freelance To Full Time Penetration Tester

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Penetration Tester position at Acme Corporation, which I discovered on LinkedIn. With a strong background in cybersecurity and a passion for identifying vulnerabilities, I believe my experience aligns perfectly with your team's needs and the innovative projects you undertake.

Over the past three years, I have successfully conducted over 50 penetration tests for various clients, ranging from small startups to large enterprises. One of my key achievements includes a comprehensive assessment for a financial services company, where I identified critical vulnerabilities that could have led to a significant data breach. My detailed report not only helped the client secure their systems but also resulted in a 30% reduction in their overall security risks. Additionally, I implemented a custom training program for my clients' teams, enhancing their understanding of security best practices and reducing incidents by 25% within six months.

I am particularly drawn to Acme Corporation due to its reputation for fostering innovation and commitment to maintaining the highest security standards. I am eager to bring my expertise in penetration testing and a proactive approach to your team. I would love the opportunity to discuss how my background, skills, and enthusiasms align with the goals of Acme Corporation. Thank you for considering my application, and I look forward to the chance to speak with you soon.

Sincerely,

Jordan Taylor
