Acme Corporation

RE: Freelance To Full Time Platform Engineer

Dear Hiring Manager,

I am excited to apply for the Freelance To Full Time Platform Engineer position at Acme Corporation, as advertised on LinkedIn. With a proven track record in developing scalable infrastructure solutions and my passion for innovative technology, I am eager to contribute to your team and help drive the success of your projects.

In my recent freelance role, I successfully redesigned the deployment pipeline for a cloud-based application, which resulted in a 40% reduction in deployment time. By implementing CI/CD best practices and automating manual processes, I not only increased efficiency but also enhanced the team's ability to deliver new features to clients more rapidly. Additionally, I played a key role in migrating a legacy system to a microservices architecture for a client in the fintech sector. This transition improved system reliability and reduced downtime by 30%, ultimately leading to higher customer satisfaction and retention.

I am particularly impressed by Acme Corporation's commitment to leveraging cutting-edge technology and fostering a collaborative work environment. I believe that my experience in DevOps practices and my ability to work effectively in both independent and team settings make me a strong fit for this role. I am genuinely enthusiastic about the opportunity to bring my expertise to Acme Corporation and contribute to the creation of robust platform solutions.

Thank you for considering my application. I am looking forward to the possibility of discussing how my background, skills, and enthusiasms align with the goals of Acme Corporation. I hope to speak with you soon.

Sincerely,

Jordan A. Thompson
