Acme Corporation

RE: Freelance To Full Time Qa Engineer

Dear Hiring Manager,

I am writing to express my enthusiasm for the Freelance To Full Time QA Engineer position at Acme Corporation, which I discovered on your careers page. With over five years of experience in quality assurance, particularly in freelance roles, I am excited about the opportunity to contribute to your team and ensure the highest quality standards in your software products.

During my time as a freelance QA engineer, I successfully led a project for a mobile application that drastically improved user engagement by 30%. By implementing a rigorous testing protocol, including automated tests and exploratory testing sessions, I identified critical bugs that, if left unnoticed, would have negatively impacted user experience. Additionally, I developed a comprehensive QA strategy for a web application that reduced the time to market by 25%, allowing the client to launch successfully ahead of the competition. My ability to adapt quickly to new environments and technologies has consistently allowed me to deliver exceptional results.

I am particularly drawn to Acme Corporation's commitment to innovation and quality, and I am eager to bring my skills in manual and automated testing to your team. I believe that my proactive approach and dedication to improving processes would make me a valuable asset. I would welcome the opportunity to discuss how my experiences align with the goals of Acme Corporation and how I can contribute to your success. Thank you for considering my application.

Sincerely,

Jordan A. Thomson
