Acme Corporation

RE: Freelance To Full Time Unity Developer

Dear Hiring Manager,

I am writing to express my enthusiasm for the Freelance To Full Time Unity Developer position at Acme Corporation, as advertised on LinkedIn. With over five years of experience developing interactive and engaging games using Unity, I am excited about the opportunity to bring my skills to your team and contribute to your innovative projects.

During my freelance career, I successfully developed a multi-platform mobile game that achieved over 100,000 downloads within the first month of release. This project not only honed my ability to create immersive gameplay experiences but also strengthened my project management skills, as I coordinated with artists and sound designers to ensure cohesive design and functionality. Additionally, I led a collaborative initiative for a VR training simulation used by several educational institutions, which received praise for its intuitive user interface and engaging learning environment.

I am particularly drawn to the culture of creativity and collaboration at Acme Corporation. I am eager to bring my expertise in C# and Unity's latest features to your team while also learning from the talented developers at your company. I believe that my experience in both independent projects and team collaborations makes me a strong candidate for this role.

I would love the opportunity to discuss how my background, skills, and enthusiasms align with the goals of Acme Corporation. Thank you for considering my application; I look forward to the possibility of contributing to your exciting projects.

Sincerely,

Jordan T. McAllister
