Acme Corporation

RE: Internship Equity Research Analyst

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Equity Research Analyst position at Acme Corporation, as advertised on your careers page. With a strong foundation in finance and a keen interest in equity markets, I am excited about the opportunity to contribute to your esteemed research team while developing my analytical skills further.

During my studies at the University of Chicago, I completed a project analyzing the financial performance of mid-cap technology firms, where I identified key trends in revenue growth and market positioning. This analysis not only sharpened my skills in financial modeling and data interpretation but also resulted in a presentation that was highly praised by my professors for its depth and clarity. Additionally, I interned at XYZ Financial Services, where I assisted in preparing comprehensive equity reports for potential investors. My research helped in identifying undervalued stocks, resulting in several successful investment recommendations that aligned with our clients' portfolios.

I am particularly impressed by Acme Corporation's commitment to thorough research and data-driven insights, which I believe are crucial for informed investment decisions. I am eager to bring my analytical abilities and passion for equity markets to your team. I am confident that my background in finance, coupled with my proactive approach and attention to detail, will allow me to contribute effectively as an intern.

I look forward to the possibility of discussing how I can contribute to the Acme Corporation team. Thank you for considering my application.

Sincerely,

Jordan Thompson
