Acme Corporation

RE: Internship Fashion Designer

Dear Hiring Manager,

I am thrilled to apply for the Internship Fashion Designer position at Acme Corporation, which I discovered on your careers page. As a passionate fashion design student at the Fashion Institute of Technology, I am eager to bring my creativity and technical skills to your innovative team, known for its trendsetting designs and commitment to sustainable fashion.

During my academic career, I have had the opportunity to lead several projects that showcased my design capabilities and attention to detail. One of my key achievements was creating a capsule collection for a sustainable fashion showcase, which received recognition for its unique blend of eco-friendly materials and contemporary aesthetics. I designed five versatile pieces that highlighted the importance of sustainability in fashion, and my collection was featured in a local fashion show, attracting positive feedback from industry professionals.

In addition to my design work, I completed a summer internship with a boutique fashion label where I assisted in the development of their Spring/Summer collection. My contributions included sketching designs, sourcing fabrics, and creating technical packs. I collaborated closely with the lead designer, gaining valuable insights into the production process and enhancing my understanding of garment construction and market trends. This experience has prepared me to contribute effectively to your team at Acme Corporation.

I am excited about the opportunity to further discuss how my background, skills, and enthusiasm for fashion can align with the goals of Acme Corporation. Thank you for considering my application; I look forward to the possibility of contributing to your esteemed company.

Sincerely,

Sophia Martinez
