Acme Corporation

RE: Internship Food Processing Worker

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Food Processing Worker position at Acme Corporation, which I discovered on your careers page. With a strong interest in food science and a dedication to maintaining high standards in food safety and processing, I am excited about the opportunity to contribute to your team while furthering my understanding of the industry.

During my recent coursework in Food Technology at State University, I completed a project that involved developing a sustainable food preservation technique that increased the shelf life of products by 15%. This experience not only strengthened my practical skills in food processing but also deepened my understanding of the importance of innovation in the industry. Additionally, I interned at Fresh Farms, where I assisted in the quality control department, ensuring compliance with safety standards. I successfully identified and resolved 20% more quality issues than my peers, demonstrating my attention to detail and commitment to excellence in food processing.

I am particularly drawn to Acme Corporation's commitment to sustainability and quality in food production. I am eager to bring my background in food science and hands-on experience to your team, and I am confident that my proactive approach and passion for the industry align well with your company's goals. I would love the opportunity to discuss how my experiences can contribute to the innovative work being done at Acme Corporation. Thank you for considering my application.

Sincerely,

Jordan Thompson
