Acme Corporation

RE: Internship Gas Technician

Dear Hiring Manager,

I am excited to apply for the Internship Gas Technician position at Acme Corporation, which I discovered through my university's career services portal. With a strong passion for the energy sector and a commitment to safety and efficiency, I believe this role perfectly aligns with my academic background and career aspirations in the gas industry.

During my time at State University, I completed a project where I collaborated with a team to design a small-scale gas distribution model. This hands-on experience not only honed my technical skills but also deepened my understanding of gas flow dynamics and safety protocols. Additionally, I interned at a local utility company where I assisted in conducting safety inspections and maintenance on gas meters and pipelines. I was recognized for my meticulous attention to detail, which contributed to a 15% improvement in compliance in our safety audits.

I am particularly drawn to the innovative projects at Acme Corporation and am eager to contribute my analytical skills and enthusiasm for the gas industry. I am confident that my proactive approach and eagerness to learn will allow me to make a meaningful impact as an intern. I would love the opportunity to discuss my application further and explore how I can contribute to your team. Thank you for considering my application.

Sincerely,

Jordan Thompson
