Acme Corporation
RE: Internship Geologist

Dear Hiring Manager,

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Geologist position at Acme Corporation, which I discovered on your careers page. With a strong academic background in geology and hands-on experience in fieldwork, I am eager to contribute to your team and enhance my skills in a dynamic environment such as yours.

During my undergraduate studies at the University of Colorado, I completed a research project focused on sedimentary processes in the Rocky Mountain region, where I analyzed rock samples and created detailed geological maps. This project not only honed my analytical skills but also sparked my passion for field research. Additionally, I interned with Geotech Solutions last summer, where I assisted in sample collection and data analysis for environmental assessments. My efforts led to the completion of a comprehensive report that was presented to local stakeholders, showcasing my ability to communicate complex geological concepts effectively.

I am particularly drawn to Acme Corporation due to your commitment to innovative geological solutions and sustainable practices. I believe my proactive approach and problem-solving skills would be a great match for your team. I would love the opportunity to discuss how my background, skills, and enthusiasm align with the goals of Acme Corporation. Thank you for considering my application, and I look forward to the possibility of contributing to your esteemed team.

Sincerely,

Emily Johnson
