Acme Corporation

RE: Internship Intellectual Property Attorney

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Intellectual Property Attorney position at Acme Corporation, as advertised on the LawJobs platform. With a strong academic background in intellectual property law and practical experience through various legal internships, I am excited about the opportunity to contribute to your esteemed team while further developing my skills in this dynamic field.

During my time at the University of California, Berkeley, I served as a research assistant in the Intellectual Property Law Clinic, where I assisted clients with trademark registrations and patent applications. One of my key achievements was successfully guiding a local startup through the trademark application process, which included conducting comprehensive trademark searches and drafting responses to office actions. This experience not only honed my legal research and writing skills but also deepened my understanding of the intricacies involved in IP law. Additionally, I completed an internship at a prominent law firm, where I collaborated on a case involving the infringement of copyright and played a crucial role in preparing legal briefs that contributed to a favorable settlement for our client.

I am particularly drawn to Acme Corporation's commitment to innovation and its reputation for excellence in protecting intellectual property rights. I am eager to bring my analytical skills and proactive approach to your team, and I am excited about the prospect of working under the mentorship of your experienced attorneys. I would welcome the opportunity to discuss how my background and experiences align with the goals of Acme Corporation. Thank you for considering my application; I look forward to the possibility of contributing to your team.

Sincerely,

Jordan Lee Thompson
