Acme Corporation

RE: Internship Interaction Designer

Dear Hiring Manager,

I am excited to apply for the Internship Interaction Designer position at Acme Corporation, as advertised on your careers page. With a strong passion for user-centered design and a keen interest in creating intuitive interactions, I am eager to contribute my skills to your innovative team. The opportunity to work at a leading company like Acme, known for its commitment to excellence in design, aligns perfectly with my career aspirations.

During my time at university, I successfully led a team project where we redesigned a mobile application for a local non-profit organization. By conducting user research and usability testing, we identified key pain points that users faced and implemented design solutions that improved user satisfaction by 40%. Additionally, I completed a summer internship at a startup, where I collaborated with developers and product managers to prototype new features based on user feedback. This experience not only honed my skills in wireframing and visual design but also emphasized the importance of teamwork and communication in the design process.

I am particularly drawn to Acme Corporation's focus on delivering exceptional user experiences and its emphasis on continuous improvement. I am eager to bring my background in interaction design, along with my analytical approach to problem-solving, to your team. I believe that my hands-on experience and enthusiasm for creating engaging user interfaces make me a strong candidate for this internship.

I would love the opportunity to discuss my application further and explore how I can contribute to Acme Corporation's design initiatives. Thank you for considering my application. I look forward to the possibility of working together.

Sincerely,

Jordan Smith
