Acme Corporation

RE: Internship iOS Developer

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship iOS Developer position at Acme Corporation, which I discovered on your careers page. As a passionate developer with a strong foundation in Swift and Objective-C, I am excited about the opportunity to contribute to your innovative projects and learn from the talented team at Acme.

During my studies at the University of Tech, I successfully developed an iOS application that enhances student engagement by allowing users to connect and share resources. This project not only honed my skills in Swift but also taught me the importance of user experience design, as I implemented feedback from beta testers to improve the interface. Additionally, I completed a summer internship with XYZ Solutions, where I collaborated with senior developers to enhance an existing application. My contributions improved app performance by 30%, showcasing my ability to analyze and optimize code effectively.

I am particularly drawn to Acme Corporation because of your commitment to developing cutting-edge mobile applications that prioritize user experience. I am eager to bring my dedication to learning and my technical skills to your team. I would love the opportunity to further discuss how I can contribute to your projects and grow as a developer in the exciting environment at Acme. Thank you for considering my application.

Sincerely,

Jordan Thompson
