Acme Corporation

RE: Internship Javascript Developer

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Javascript Developer position at Acme Corporation, as advertised on your careers page. With a strong foundation in JavaScript and a keen interest in web development, I am excited about the opportunity to contribute to your innovative team and gain valuable experience in a dynamic work environment.

During my time at university, I successfully led a team project to develop an interactive web application that allows users to track their carbon footprint. Utilizing JavaScript along with React, I implemented features such as dynamic user input and real-time data visualization, which resulted in a 25% increase in user engagement during our testing phase. Additionally, I completed a summer internship with XYZ Tech, where I collaborated with senior developers to enhance existing features on a large-scale e-commerce platform. My contributions included optimizing JavaScript functions, which improved site loading times by 30%, significantly enhancing the user experience.

I am particularly drawn to Acme Corporation because of your commitment to leveraging technology for positive change and your focus on fostering creativity within your team. I am eager to bring my technical skills and collaborative spirit to your organization. I believe that my proactive approach to problem-solving, along with my ability to adapt and learn quickly, will allow me to make a meaningful contribution to your projects.

I would welcome the opportunity to discuss how my background, skills, and enthusiasms align with the needs of your team. Thank you for considering my application. I hope to speak with you soon about this exciting internship opportunity.

Sincerely,

Jordan Smith
