Acme Corporation

RE: Internship Math Teacher

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Math Teacher position at Acme Corporation, which I discovered through your careers page. As a passionate educator dedicated to fostering a love for mathematics among students, I am excited about the opportunity to contribute to your team and support the learning journeys of young minds.

During my undergraduate studies in Mathematics Education at State University, I had the privilege of working as a tutor in the university's math lab, where I assisted students in developing their problem-solving skills and overcoming challenges in various mathematical concepts. I successfully implemented engaging lesson plans that improved student performance by an average of 20% in their course assessments. Additionally, I served as a student teacher at Lincoln High School, where I designed and executed a series of interactive workshops focused on real-world applications of algebra and geometry. This initiative not only increased student engagement but also led to a noticeable improvement in classroom participation and enthusiasm for math.

I am particularly drawn to Acme Corporation's commitment to innovative teaching methods and its supportive learning environment. I am eager to bring my skills in curriculum development and student engagement to your organization and contribute to the academic success of your students. I would love the opportunity to discuss how my background, skills, and enthusiasms align with the goals of your team. Thank you for considering my application; I look forward to the possibility of speaking with you soon.

Sincerely,

Jordan Lee Smith
