Acme Corporation

RE: Internship Nutritionist

Dear Hiring Manager,

I am thrilled to apply for the Internship Nutritionist position at Acme Corporation, as advertised on your careers page. With a strong academic background in Nutrition Science and a passion for promoting health and wellness, I am eager to contribute to your team and support your mission of improving community nutrition.

During my time at the University of Health Sciences, I successfully completed a research project focused on the impact of dietary interventions on student performance. This project not only honed my analytical skills but also resulted in a published paper in the Journal of Nutrition Education. Additionally, I volunteered at the local food bank, where I developed a nutritional guidance program that increased the number of healthy meals distributed by 30% over six months. These experiences have equipped me with a solid foundation in nutrition counseling and community outreach, which I believe will be valuable in this internship.

I am particularly drawn to Acme Corporation's commitment to evidence-based nutrition practices and innovative health solutions. I am excited about the opportunity to learn from experienced professionals in the field and to contribute to ongoing projects that align with my skills and passions. I am confident that my proactive approach and dedication to improving public health will be an asset to your team.

I would love the opportunity to discuss how my background and skills align with the goals of Acme Corporation. Thank you for considering my application. I look forward to the possibility of contributing to your esteemed organization.

Sincerely,

Maria Johnson
