Acme Corporation

RE: Internship Pest Control Technician

Dear Hiring Manager,

I am thrilled to apply for the Internship Pest Control Technician position at Acme Corporation, which I discovered through my university's career services. This opportunity aligns perfectly with my passion for environmental science and my desire to gain hands-on experience in pest management. Acme's commitment to sustainable practices and innovative pest control solutions resonates with my values, and I am eager to contribute to your team.

During my studies in Environmental Science at State University, I completed a project on integrated pest management that focused on sustainable approaches to controlling agricultural pests. I developed a comprehensive report that outlined various biological control methods and their effectiveness, which received high commendation from my professors. Additionally, I interned last summer with Green Earth Pest Solutions, where I assisted in conducting thorough inspections and learned about the safe application of eco-friendly pesticides. One of my key achievements was improving the efficiency of our service route, which resulted in a 15% increase in productivity while maintaining a high safety standard for clients.

I am particularly impressed by Acme's dedication to educating clients on pest prevention, and I believe my background in research and customer service will allow me to contribute positively to your team. I am eager to learn from experienced professionals in the field and gain practical skills that will prepare me for a successful career in pest control. I would love the opportunity to discuss how my background, skills, and enthusiasm align with the goals of Acme Corporation. Thank you for considering my application.

Sincerely,

Jordan Smith
