Acme Corporation

RE: Internship Physician Assistant

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Physician Assistant position at Acme Corporation, which I discovered on your careers page. As a dedicated and driven second-year graduate student at the University of Health Sciences, I am eager to contribute my skills and passion for patient care to your esteemed organization.

During my studies, I completed a hands-on clinical rotation at City Hospital, where I assisted a team of healthcare professionals in providing comprehensive care to a diverse patient population. I was responsible for conducting patient history assessments, performing basic diagnostic tests, and collaborating with supervising physicians to develop treatment plans. This experience not only honed my clinical skills but also enhanced my ability to communicate effectively with patients and their families, ensuring they fully understood their treatment options.

Furthermore, I have been actively involved in the Health Outreach Program, where I volunteered to provide health screenings and education in underserved communities. This initiative taught me the importance of empathy and cultural competence in healthcare, as I worked closely with patients from various backgrounds. My contributions helped increase program participation by 30%, underscoring my commitment to promoting health equity and accessibility.

I am excited about the opportunity to further discuss how my background and skills align with the needs of Acme Corporation. Thank you for considering my application; I look forward to the possibility of contributing to your team and enhancing my clinical skills as an intern. Please feel free to contact me at your convenience to arrange a discussion.

Sincerely,

Emily Johnson
