Acme Corporation

RE: Internship Pipefitter

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Pipefitter position at Acme Corporation, as advertised on your careers page. With a strong educational background in plumbing technology and hands-on experience gained through various projects, I am eager to contribute to your team and learn from the best in the industry.

During my time at XYZ Technical College, I completed a comprehensive training program in pipefitting, where I gained practical skills in interpreting blueprints and schematics. I successfully collaborated with a team on a project to install a new piping system for a local community center, which improved the building's water efficiency by 30%. This experience not only honed my technical abilities but also taught me the importance of teamwork and communication in achieving project goals.

Additionally, I interned with a local plumbing company, where I assisted in troubleshooting and repairing existing piping systems. I was recognized for my problem-solving skills when I identified a significant leak that was overlooked during routine inspections, ultimately saving the company a substantial amount in water bills and repairs. My commitment to safety and quality assurance ensures that I will uphold the high standards of Acme Corporation.

I am excited about the possibility of further discussing how my background, skills, and enthusiasms align with the needs of your team. Thank you for considering my application. I look forward to the opportunity to contribute to Acme Corporation and grow as a professional in the pipefitting field.

Sincerely,

Jordan M. Thompson
