Acme Corporation

RE: Internship Pool Technician

Dear Hiring Manager,

I am excited to apply for the Internship Pool Technician position at Acme Corporation, which I discovered on your company's careers page. With a strong passion for environmental sciences and hands-on experience in aquatic maintenance, I am eager to contribute to your team and support your mission of providing safe and clean recreational facilities.

During my studies in Environmental Technology at Lakeside University, I completed a hands-on project where I collaborated with a local community pool to assess and improve its water quality. My team and I conducted regular tests for pH, chlorine levels, and turbidity. As a result of our efforts, we implemented a new monitoring system that reduced chemical usage by 20%, while maintaining pool safety standards. Additionally, I interned with Green Pools, where I learned the intricacies of pool maintenance, including filtration system checks and repairs, which enhanced my troubleshooting skills and attention to detail.

I am particularly drawn to the opportunity at Acme Corporation because of your commitment to sustainability and community health. I am confident that my technical skills, combined with my proactive approach to problem-solving and teamwork, would make me a valuable asset to your team. I would appreciate the opportunity to discuss how my background and enthusiasm for pool maintenance can contribute to your organization. Thank you for considering my application, and I look forward to the possibility of discussing this exciting opportunity with you.

Sincerely,

Jordan A. Thompson
