Acme Corporation

RE: Internship Pricing Analyst

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Pricing Analyst position at Acme Corporation, as advertised on your careers page. With a solid foundation in data analysis and a keen interest in pricing strategies, I am eager to contribute to your team and help drive informed pricing decisions that enhance profitability and competitiveness.

During my studies in Economics at the University of XYZ, I successfully completed a project that involved analyzing historical sales data to identify pricing trends and consumer behavior patterns. By applying statistical tools and software, I was able to generate insights that not only recommended optimal pricing adjustments but also projected potential revenue impacts. This experience honed my analytical skills and made me proficient in taking raw data and transforming it into actionable strategies.

Additionally, I interned at ABC Company, where I collaborated with the marketing and sales departments to evaluate pricing models. I helped to develop a pricing analysis report that highlighted the effectiveness of various promotional strategies. My direct involvement in this project led to a 15% increase in sales during the promotional period. I believe that my ability to communicate complex data findings effectively will be a valuable asset in the fast-paced environment at Acme Corporation.

I am excited about the opportunity to further discuss how my skills and experiences align with the goals of your pricing team. Thank you for considering my application; I look forward to the possibility of contributing to Acme Corporation as an Internship Pricing Analyst.

Sincerely,

Jordan Taylor
