Acme Corporation

RE: Internship Product Designer

Dear Hiring Manager,

I am excited to apply for the Internship Product Designer position at Acme Corporation, which I discovered on your careers page. With a strong foundation in user-centered design and a passion for creating intuitive experiences, I believe I am well-suited to contribute to your innovative team and help elevate your product offerings.

During my time as a design student at State University, I successfully led a team project that focused on redesigning a mobile application for local non-profits to improve user engagement. Through user research, wireframing, and prototyping, we increased user feedback scores by 30% after implementing our design changes. Additionally, I interned at Tech Innovations where I collaborated with senior designers to revamp an existing web platform. My contributions included creating high-fidelity mockups and conducting A/B testing, which resulted in a 15% increase in user retention.

I am particularly drawn to Acme Corporation because of your commitment to pushing boundaries in product design and user experience. I am eager to learn from your talented team and contribute my skills in user research, prototyping, and design thinking. I would love the opportunity to discuss how my background, skills, and enthusiasms align with the goals of Acme Corporation. Thank you for considering my application.

Sincerely,

Jordan Thompson
