Acme Corporation

RE: Internship Speech Language Pathologist

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship Speech Language Pathologist position at Acme Corporation, which I discovered through my university's career services portal. With a strong academic foundation in communication sciences and hands-on experience in therapeutic settings, I am eager to contribute to your team and support the diverse needs of your clients.

During my studies at State University, I had the opportunity to complete a practicum at a local rehabilitation center where I assisted in the development and implementation of speech therapy programs for children with speech sound disorders. One of my key achievements was collaborating with a certified Speech Language Pathologist to create engaging therapy materials that improved the articulation skills of five young clients, resulting in a noticeable increase in their confidence and communication abilities. Additionally, my volunteer experience at a community outreach program allowed me to work with adults facing cognitive-communication challenges post-stroke. By employing evidence-based strategies, I helped facilitate group sessions that enhanced social interaction and provided support for their speech recovery journey.

I am particularly drawn to the inclusive approach of Acme Corporation, as I believe in the importance of tailoring therapy to meet individual needs and fostering a supportive environment. I am excited about the possibility of contributing to your innovative programs and learning from your experienced staff. I would welcome the opportunity to discuss how my background, skills, and passion for speech-language pathology align with the goals of Acme Corporation. Thank you for considering my application.

Sincerely,

Jordan Taylor
