Acme Corporation

RE: Internship Ui Designer

Dear Hiring Manager,

I am writing to express my enthusiasm for the Internship UI Designer position at Acme Corporation, which I discovered on your careers page. With a passion for creating user-centered designs and a keen interest in innovative technology, I am excited about the opportunity to contribute to your team and develop my skills in a dynamic environment.

During my recent project at university, I led a team of five to redesign the user interface for a local non-profit organization's website. By conducting user research and usability testing, we were able to increase the site's user satisfaction score by 40%. My role involved creating wireframes and interactive prototypes using Figma, which allowed us to visualize and iterate on our designs effectively. Additionally, I completed a freelance project for a startup, where I designed a mobile app interface that improved user engagement by implementing intuitive navigation and visually appealing elements. This experience honed my ability to balance aesthetics with functionality, a vital skill for any UI designer.

I am particularly drawn to Acme Corporation because of your commitment to innovative solutions and user experience excellence. I believe that my background in design principles, along with my enthusiasm for continuous learning, make me a great fit for your team. I am eager to bring my design skills and collaborative spirit to Acme Corporation and contribute to exciting projects that prioritize user experience.

I look forward to the opportunity to discuss how my skills and experiences align with the goals of Acme Corporation. Thank you for considering my application, and I hope to speak with you soon.

Sincerely,

Jordan Smith
