Acme Corporation

RE: Internship Ux Designer

Dear Hiring Manager,

I am excited to apply for the Internship UX Designer position at Acme Corporation, which I discovered through your career portal. With a strong passion for user-centered design and a background in graphic design, I believe I can contribute significantly to your team while further developing my skills in a dynamic environment. Acme Corporation's commitment to innovation and excellence in user experience resonates deeply with my career aspirations.

During my time at XYZ University, I was a part of a team project where we redesigned a mobile application for a local non-profit organization. My role involved conducting user research and usability testing, which led to a 40% increase in user engagement after implementing the changes. I also created wireframes and interactive prototypes using Figma, allowing our team to visualize concepts effectively and present them to stakeholders. Additionally, I interned at ABC Design Studio, where I collaborated with developers and product managers to refine user interfaces for a new e-commerce platform. This experience taught me the importance of cross-functional teamwork and the iterative design process, resulting in a 20% reduction in development time after user feedback was incorporated.

I am eager to bring my skills in user research, prototyping, and collaborative design to the Internship UX Designer role at Acme Corporation. I am particularly drawn to your projects focused on enhancing user accessibility, and I would be thrilled to contribute to such meaningful work. I welcome the opportunity to discuss how my background, skills, and enthusiasm align with the goals of your team. Thank you for considering my application, and I look forward to the possibility of speaking with you soon.

Sincerely,

Jordan Smith
