Acme Corporation

RE: Internship Ux Ui Designer

Dear Hiring Manager,

I am excited to apply for the Internship Ux Ui Designer position at Acme Corporation, as advertised on your careers page. With a deep passion for user experience and interface design, I believe that my skills and enthusiasm make me a strong candidate for this role. I am particularly drawn to Acme Corporation's commitment to innovation and user-centered design, and I am eager to contribute to your team.

During my recent internship at Creative Solutions, I had the opportunity to redesign the user interface for a mobile app that experienced a significant drop in user engagement. By conducting user research and usability testing, I identified pain points in the existing design and implemented a more intuitive layout, resulting in a 25% increase in user retention over three months. Additionally, I collaborated with cross-functional teams to create interactive wireframes and prototypes, utilizing tools such as Figma and Adobe XD, which streamlined our development process and improved communication with stakeholders.

Furthermore, my academic experience at the University of Design has equipped me with the foundational knowledge and practical skills necessary for this internship. I worked on a capstone project focused on developing a web application for local businesses, where I led the user experience research and design phases. This project not only enhanced my design skills but also instilled a strong understanding of how to balance aesthetic appeal with functional usability.

I am eager to bring my background in UX/UI design and my passion for creating meaningful user experiences to Acme Corporation. I would welcome the opportunity to discuss how I can contribute to your ongoing projects and initiatives. Thank you for considering my application; I look forward to the possibility of contributing to your creative team.

Sincerely,

Jordan Taylor
