Acme Corporation

RE: No Experience Industrial Designer

Dear Hiring Manager,

I am thrilled to apply for the No Experience Industrial Designer position at Acme Corporation, as advertised on your careers page. With a passion for innovative design and a strong educational background in industrial design, I am excited about the opportunity to contribute to your team and help create products that enhance user experience and functionality.

During my time at university, I completed a capstone project where I designed a user-friendly kitchen gadget that aimed to simplify meal preparation. This project not only received positive feedback from faculty but also won the Best Innovation award at our annual design showcase. I utilized Autodesk Fusion 360 to create prototypes, which improved my skills in 3D modeling and prototyping, ensuring that I can effectively communicate my design ideas. Furthermore, I interned at a local startup where I assisted in the development of eco-friendly packaging solutions. This experience taught me the importance of sustainability in design and how to collaborate with cross-functional teams to meet tight deadlines.

I am particularly drawn to Acme Corporation due to your commitment to sustainable design practices and innovative solutions. I am eager to bring my creativity, attention to detail, and fresh perspective to your team. I would love the opportunity to discuss how my academic achievements and hands-on experience, albeit limited, can contribute to the exciting projects at Acme Corporation. Thank you for considering my application, and I look forward to the possibility of discussing this wonderful opportunity with you.

Sincerely,

Jordan Taylor
