Acme Corporation

RE: No Experience Visual Designer

Dear Hiring Manager,

I am writing to express my enthusiasm for the No Experience Visual Designer position at Acme Corporation, which I discovered on your careers page. As a passionate and creative individual with a strong foundation in design principles, I am excited about the opportunity to contribute to your innovative team and help bring your brand vision to life.

During my academic career at State University, I completed a Bachelor of Arts in Graphic Design, where I honed my skills in various design software, including Adobe Creative Suite. I undertook a project for a local nonprofit organization that involved rebranding their visual identity. This experience not only allowed me to create a cohesive and appealing design that increased their visibility but also taught me how to work collaboratively and meet client expectations. Additionally, I participated in a design competition where I was awarded first place for a mobile app UI design concept, which further solidified my ability to create user-centered designs that are both functional and aesthetically pleasing.

I am eager to bring my creativity, attention to detail, and fresh perspective to Acme Corporation. I am particularly drawn to your commitment to innovative design and user experience, and I believe my background in graphic design and my willingness to learn can contribute to your team's success. I look forward to the possibility of discussing how I can support your design initiatives and grow as a visual designer within your esteemed company. Thank you for considering my application.

Sincerely,

Jordan Lee Smith
