SUMMARY

Dedicated and detail-oriented Air Traffic Controller with over 5 years of experience in managing airspace and ensuring safe aircraft operations. Proven ability to improve efficiency and safety through strategic planning and real-time decision-making.

EXPERIENCE

Air Traffic Controller

June 2020 - Present

Hartsfield-Jackson Atlanta International Airport, Atlanta, GA

- Managed up to 300 aircraft movements per hour while maintaining a 99.9% safety record.
- Implemented new communication protocols that reduced average response time by 15%, enhancing operational efficiency.
- Coordinated with multiple teams and agencies to streamline flight operations, saving the airport approximately \$1.2 million annually.

Air Traffic Control Specialist

May 2018 - May 2020

San Francisco International Airport, San Francisco, CA

- Facilitated daily operations for over 200 flights, ensuring compliance with FAA regulations.
- Trained 5 junior controllers, improving team performance and operational readiness.
- Developed and implemented a flight data management system that reduced flight delays by 20%.

Air Traffic Controller Intern

Jan 2017 - Dec 2017

Seattle-Tacoma International Airport, Seattle, WA

- Assisted senior controllers in managing air traffic, gaining hands-on experience in real-time decision-making.
- Conducted safety audits that identified and mitigated potential risks, contributing to a safer operating environment.
- Collaborated with maintenance teams to ensure all navigation systems functioned optimally.

EDUCATION

Bachelor of Science in Air Traffic Management

May 2018

Embry-Riddle Aeronautical University, Prescott, AZ • GPA: 3.7

SKILLS

Technical Skills: Air Traffic Control Procedures, Flight Operations Management, Crisis Management, Communication Protocols

Tools & Frameworks: STARS (Standard Terminal Automation Replacement System), ADS-B (Automatic Dependent Surveillance-Broadcast), Radar Data Processing Tools
