SUMMARY

Detail-oriented Backend Developer with over 5 years of experience in designing scalable applications and optimizing performance. Proficient in multiple programming languages and frameworks, with a proven track record of improving system efficiency and delivering high-quality solutions.

EXPERIENCE

Senior Backend Developer

Jan 2022 - Present

Tech Innovations Inc., San Francisco, CA

- Led the migration of legacy systems to microservices architecture, reducing server costs by 30%.
- Implemented a new API that increased data retrieval speed by 50%, enhancing user experience.
- Collaborated with cross-functional teams to streamline deployment processes, reducing release times by 40%.

Backend Developer

Jun 2018 - Dec 2021

Creative Solutions Ltd., Austin, TX

- Developed and maintained RESTful APIs for a customer management system, serving over 10,000 users.
- Optimized database queries, resulting in a 25% improvement in application performance.
- Utilized Docker and Kubernetes for containerization, improving development workflow efficiency.

Junior Backend Developer

May 2017 - May 2018

StartUp Hub, Austin, TX

- Assisted in building a scalable backend for a mobile application, supporting rapid user growth.
- Participated in code reviews and contributed to improving code quality and maintainability.
- Implemented logging and monitoring solutions that reduced downtime incidents by 15%.

EDUCATION

Bachelor of Science in Computer Science

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Java, Python, Node.js, SQL

Tools & Frameworks: AWS, Docker, Kubernetes, Spring Boot
