## SUMMARY

---

Dedicated and passionate college professor with over 7 years of experience in teaching and research in the field of Environmental Science. Proven track record of enhancing student engagement and improving academic performance through innovative teaching methods and curriculum development.

## EXPERIENCE

---

### Assistant Professor

Aug 2019 - Present

*Boston University, Boston, MA*

- Developed and implemented a new curriculum for Environmental Policy courses that increased student enrollment by 35%.
- Secured \$50,000 in grant funding for research on sustainable urban development, leading to a publication in a peer-reviewed journal.
- Mentored over 20 undergraduate students on independent research projects, resulting in three students presenting at national conferences.

### Lecturer in Environmental Science

Sep 2016 - May 2019

*University of California, Berkeley, Berkeley, CA*

- Enhanced student performance by 20% through the introduction of interactive learning tools and active classroom participation.
- Co-authored a textbook on climate change that received positive reviews and was adopted in multiple universities across the country.
- Organized annual workshops and seminars that brought together industry experts and students, facilitating valuable networking opportunities.

### Research Assistant

Jun 2014 - May 2016

*Stanford University, Stanford, CA*

- Assisted in a longitudinal study on the impact of climate change on coastal ecosystems, contributing to a 15% increase in research output.
- Managed data collection and analysis using R and Python, improving the efficiency of the research process by 25%.
- Collaborated with a team of researchers to publish findings in high-impact journals, enhancing the university's research profile.

## EDUCATION

---

### Ph.D. in Environmental Science

May 2018

*Stanford University, Stanford, CA • GPA: 3.9*

### Bachelor of Science in Environmental Studies

May 2014

*University of California, Los Angeles, Los Angeles, CA • GPA: 3.8*

## SKILLS

---

**Technical Skills:** Environmental Policy Analysis, Quantitative Research Methods, Statistical Software (R, SPSS), Data Visualization

**Tools & Frameworks:** ArcGIS, Python, Microsoft Office Suite, Learning Management Systems (Canvas, Blackboard)
